MEMORANDUM FOR THE RECORD

SUBJECT: 1540 Light Table Spare Parts

1. During the spare parts provisioning meeting, 1 December 1970 with representatives, it became evident that we would be tied to as the sole source of procurement for most of the spare parts, including replacement lamps.
2. In an attempt to prevent what appears to be a restrictive situation I intend to work with EPB and IEB to identify spare part vendor sources. Perhaps some of this information can still be gained from with further investigation. It is possible that some "reverse engineering" will be required. Various avenues will be explored. From past experience, we may be able to realize cost reductions if we can identify and use the actual vendor sources.
